TREE WHISPERING™

"Whisper" Holistic Healing to Your Sick Trees & Plants

SECRETS
OF THE
TREE WHISPERER™

Dr. Jim Conroy, The Tree Whisperer™
PhD. Plant Pathology, Purdue U., Developer of the Green Centrics™
Tree Healing System, 20+ Yrs as Business Executive, Teacher,
Speaker, Organic Landcare Specialist, Healer, Rose Grower

WHAT ARE THE TREES SAYING?

In 1 "Free" Evening, **THE TREE WHISPERER, DR. JIM CONROY**, reveals their insights, secrets, messages.

If you love trees, "climb inside" their world in a relaxing, guided **experiential** exercise.

Learn how trees really operate from the inside-out. Find out how sick or declining trees—and forests—can grow again **holistically**.

- How does he heal trees with a holistic energy approach?
- What are stressors that put trees into decline?
- How do new sciences and ancient wisdom apply?
- Can the negative effects of climate extremes be reversed and the planet cooled?
- Have new hope for **YOUR** trees.

Get practical tips. Find out how you can **Tree Whisper™** too!

TREE WHISPERING™

"Whisper" Holistic Healing to Your Sick Trees & Plants

Already talking with trees? During the **introductory evening AND the one-day workshop**, you'll gain basic holistic tree-healing skills. You'll be able to speak with trees, then speak for trees in danger.

- What stresses trees? Learn simple, easy "touch and concentration" techniques that help trees overcome environmental or others stresses so they can grow again.
- Understand what is important to a tree for its health.
- Go beyond "hugging" or "organics". Learn a new kind of language. Become a **Tree Ambassador™**.
- Be revitalized and feel renewed optimism.
- Learn how "new" sciences and ancient wisdom apply.
- See how trees and forests can become healthy again.

To whisper, you'll 'tune-up' your senses and expand emotions. Then, touch trees, be moved by their majesty, envision their inner design, 'hear' or know their messages.

This workshop is taught by both Dr. Conroy AND Ms. Basia Alexander, "Chief Listener"

B. A. Communications, Workshop Leader, Author, Teacher, Coach, Healer, Adjunct Prof., Gardener, Co-Creative Scientist
